

Infinity™ Urn Vault

Using the Infinity Urn Vault couldn't be easier. All that is needed is an auger to drill a hole 14" or larger and one set of hands. That's it. No extra digging or squaring off a round hole to fit a square urn vault. Engineered to be stronger than concrete at only a fraction of the weight, the Infinity Urn Vault maintains the integrity of the ground around it while also allowing anyone to carry it easily. With Infinity Urn Vault's patented waterproof sealing lid, you'll have the peace of mind of knowing each families loved one is completely protected.
