

Made in the USA Collection

Terrybear is proud to introduce our first Made in the USA collection, which features exceptionally high-quality, solid wood urns. This collection offers a wide range of unique design elements suited to fit a variety of aesthetics and home décor styles. Crafted with care in the heart of Minnesota, these urns are constructed with regional wood species, reflecting the natural beauty of the northern forests surrounding Terrybear's headquarters. Your customers can take comfort in knowing that their loved one is resting in a durable, beautifully crafted product that also supports American jobs, America's economy, and our way of life.
